# L'OLIO 100%

## Natural solvent free hardwax oil

L'Olio 100% is a finishing based on **oils and natural hard waxes of vegetable origin**. Water and **solvent free**, it is 100% solid and has an **extremely high yield**, actually you can complete a floor finishing cycle in **one coat**.

Its wax contents **efficiently protects the wood** and provides visual and tactile smoothness, while the oil penetrates deeply, nourishing the wood.

**Its maintenance is easy** and does not need any extraordinary intervention, you just need to wash the floor with Deteroil and periodically refresh it with Lux Matt wax emulsion.

**Used over Belle Epoque**, in its neutral version it can enhance the colour and in its 33 coloured versions it can create endless chromatic combinations.

Mixed with Oil-Linker, **L'Olio 100% is overcoatable**, thus mixing the chromatic soft effect of an oiled floor to the high strength of a lacquered one.

L'Olio 100% has been tested and comply with EN 71-3:2013, the norm about the migration of some hazardous products from the wood.

# CREMA D'OLIO

## Hardwax oil

Crema d'Olio is a finishing based on **oils and natural hardwaxes**.

In its Neutral and Light versions, it is the perfect solution to enhance the **light natural look of the wood**. You can also find it in coloured versions to comply all style requests. **Easy to apply**, it presents no brushstrokes thanks to its long drying time and guarantees seamless applications on larger areas.

Its wax contents **efficiently protects the wood** and provides visual and tactile smoothness, while the oil penetrates deeply, nourishing the wood.

It has an **high yield**, as thin coats are sufficient and increase product coverage.

Mixed with Oil-Linker, Crema d'Olio reaches high performance regarding stain resistance.

**Its maintenance is easy**, you just need to wash the floor with Deteroil and periodically refresh it with Lux or Lux Matt wax emulsion.

# OIL-LINKER

Natural oil cross-linker

Oil-Linker is a cross-linker that can be mixed with Tover natural oils to increase their strength properties against wear and stains.

**Oil-Linker enhances and reinforces the links among oil molecules**, allowing to reach quicker its best performance. Used as a linker to L'Olio 100%, it can be overcoated with a lacquer achieving a finish combining oil smoothness to a lacquer high strength.

# OIL PRO

High resistance hardwax oil | **Soft touch**

Oil Pro is a highly resistant hardwax oil that successfully combines **the softness of an oil** with **the strength of a lacquer**. It gives the wood a warm and full natural effect, enhancing its beauty.

Formulated with natural oils and waxes, it penetrates deeply and creates a protective surface that guarantees **high resistance to stains, scratches and abrasion**. Safe for people and the environment, it is easy to use and evenly apply on the surface, without defects.

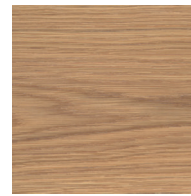

Unlike a traditional oil, **it does not require extraordinary maintenance**: you only have to wash the floor with Deteroil and periodically refresh the surface with Lux Matt wax.
