

Deteroil

Natural soap for wood floors based on coconut oil

Cleaning &
Maintenance

Natural soap with coconut oil for frequent cleaning of wood floors. Also suitable for lacquered or pre-finished wood floors. It cleans the surface, nourishes the wood, and can be used for the ordinary maintenance of wooden surfaces in general such as furniture, stairs, etc... Available in white version (Deteroil Bianco) for cleaning and maintenance of white oiled floors. It can be used for cleaning and maintenance of outdoor wooden floors (decking).

Deteroil

Technical data 20 °C – 60% r.h.

Aspect	Transparent or white liquid
Density	1,00 kg/litre
pH	9
Recommended quantity	120 ml in 10 litres of water (1,2%)
Storage	24 months in original sealed packaging – Frost sensitive
Packaging	1 litre bottle

Method of use

Before washing the floor, remove dust and impurities with a broom or vacuum cleaner. Pour 2 caps of cleanser into 10 litres of water. Wash the floor with a well-wrung mop or rag. No need to rinse. Alternatively, it can be applied with the Cinderella spray-mop, diluting half a cap in a water tank. It can also be applied with floor washing machines.

In the case of oil-treated floors in which there are large areas that are very dirty or even already worn, we recommend washing the floor with the help of a single brush with a green disc and restoring the finishing and protection treatment.

Notes

Shake before each use.

Before carrying out maintenance on an oiled or waxed floor, wait at least 20 days after the end of the treatment.

Minimize the amount of water used for washing oiled / waxed surfaces, using only moistened and well wrung out cloths.

Do not exceed the recommended doses for dilution and do not exceed the quantity of product applied.
