Your formula

# ESSENZA

Water-based two-component lacquer  
**Untreated look**

Essenza is the two-component water-based lacquer in **extra-matt** version for a perfect **untreated look of light woods** like oak or maple.

Even if the finishing is totally invisible, the lacquer guarantees **extremely high performances of abrasion and spots resistance**.

# UNIQUA NATUR

Water-based Self-Linking lacquer  
**Invisible look**

Uniqua Natur is the **Self-Linking** lacquer for wood floors. It creates an imperceptible but extremely strong film which **enhances the beauty of raw wood**. Recommended on light wood species, like oak, Uniqua Natur particularly valorizes them. Its curing system guarantees a **high long-lasting protection against wear**, scratches and spots and makes it suitable for intense traffic areas.

# MAXIMA

## Two-component water-based lacquer Very intense traffic

Maxima is a two-component water-based lacquer with high coverage level and **very low VOC content** giving the wood a rich look, maintaining its natural colour. Particularly recommended for high traffic areas, it is **extremely resistant** to abrasion and stains. Easy to apply, it has a long use time. Available extra-matt, matt and semi-glossy, it is ideal for both light and exotic woods.

# BELLA SQ

## Two-component water-based lacquer Without isocyanate

Bella SQ is a two-component water-based lacquer **free from isocyanate** and from other substances dangerous for the user and the environment. **Easy to use**, it has a high covering power and excellent resistance to abrasion and chemicals. Suitable for environments with intense traffic, it is available glossy and extra-matt.

# IDROLAK DR97 SQ

Water-based two-component lacquer  
**Natural effect**

Idrolak DR97 SQ extra-matt is the water-based two-component lacquer which enables to achieve a **high rich finishing keeping the original wood colour**, also on exotic wood. It is **very easy to apply**, it has a long working time and an **excellent chemical and physical resistance**. Moreover the varnish has good anti-slip properties.
