PRO-DECK

Outdoor water-based long-lasting protection

Pro-Deck is a water-based outdoor finish for **the long-lasting protection of decking**, providing it with a natural look. Pro-Deck is extremely resistant to UV rays and temperature changes, it does not peel and **protects the wood against water and allows it to breathe**.

Easy to use and to renovate, you can spread it with a roller just like a lacquer and it does not need any sanding before restoration.

It is particularly recommended on surfaces subject to critical climatic conditions, and it is available in Neutral, Teak and Grey versions.

You can apply it on all wood species and use it both horizontally and vertically.

LONG-LASTING
High mechanical strength
Excellent UV ray resistance

EASY
Roller application
Renew without sanding

WATER-PROOF
Good water-proofing action
No peeling

MULTI-EFFECT

High PROtection for DECKing

Pro-Deck has a much longer lasting time than any traditional oil for outdoor purposes.

Teak treated with a traditional oil for outdoor, after 10 months.

Teak treated with Pro-Deck, after 10 months.

How was PRO-DECK conceived?

The successful challenge of Velodromo Vigorelli in Milan

We got a very special request for a very special place: the historical **Vigorelli cycle track in Milan**, where Fausto Coppi beat the World hour record in 1942 and Jacques Anquetil in 1956. The track had been closed for 15 years and needed a complete refurbishment.

The challenge was important: we had to find a finishing product able **to guarantee an extremely strong resistance to abrasion, with evident anti-slip properties** and providing at the same time a **long-lasting protection** against harsh climatic conditions.

We fully succeeded in developing an innovative water-based impregnating agent.

The Temple of Speed could reopen its doors.

OIL4SUN

Outdoor natural oil

Oil4Sun is an outdoor natural oil to **finish and protect decking**, wood cladding and various wood objects.

Resistant to water, UV rays and bad weather, it penetrates deeply and does not peel, it enables the wood to breathe.

Anti-slip certified, it is particularly recommended to finish the pool-side decking. **Easy to apply and renew**, available in Neutral, Teak, Wengé and Grey versions. It can be used both horizontally and vertically.

WPC COVER

WPC protection agent

WPC Cover is a WPC water-based protection agent. It protects efficiently all surfaces **preventing them to absorb oil and grease.**

Easy to use and to renovate, **it improves the long-term original colour durability** on WPC structures.

Stain resistance

	Water 1 h	Water 16 h	Oil 1 h	Oil 16 h
Untreated surface	5	4	3	2
Surface treated with WPC Cover	5	5	5	4

Stain resistance: certification UNI EN 12720

5 = Maximum strength, the surface does not change appearance

1 = Minimum strength

SIGIL MS NERO

Decking black sealant
MS Polymer

Sigil MS Nero is a MS polymer sealant recommended for extension joints of outdoor wood floors.

It enables to achieve elastic and tough bonding on any type of support both indoor and outdoor except for some plastic materials.

Solvent-free, it is **extremely resistant to water - even sea water - and UV rays.**

GREY FREE

Renewing solution for grey wood

Grey Free restores the original aspect of greyish and dull wood as a result of ageing and deterioration.

Easy to use, **it removes effectively the grey coating** caused by mildew and UV rays.

NETTARDUE

Concentrated detergent to renovate decking and outdoor wood

NettarDue is a concentrated detergent useful to remove grease spots, heavy dirt and **old coating on outdoor wood surfaces**. It is particularly recommended for corrugated decking, it is also the right solution for smooth wood, **as it prevents you to sand the floor**.

Besides eliminating the dirt entering the wood pores, NettarDue creates a surface which is ready to get a further finish afterwards.

DECK-SOAP

Natural soap for decking

Deck-Soap is a natural soap to clean your decking. A+ certified, with low environmental impact, formulated with soap made from coconut oil, **it can clean and degrease your wood deeply**.

WPC CLEANER

WPC neutral detergent

WPC Cleaner is a neutral detergent specifically formulated to clean WPC surfaces. Thanks to its strong degreasing efficiency it gets the best results on high traffic areas, even if stained with grease or oil.
