SEAL MAX

SILICONIZED ACRYLIC LATEX

SealMax is one-component acrylic emulsion based sealant reinforced with silicone emulsion. It has superior adhesion and good elasticity.

FEATURES & BENEFITS

- Its siliconized structure, makes it possible to handle movement up to 15%.
- Water based & Non-toxic,
- Very low VOC content,
- Skin forming in 10 - 15 minutes,
- Paintable after 30 - 45 minutes.
- Water-proof after curing,
- Very easy to apply and clean,
- Can be used on all porous surfaces such as brick, concrete, drywall, wood etc.
- No odour
- Indoor and outdoor

APPLICATION AREAS

- Sealing of low movement joints between various construction materials (wood, drywall, concrete, brick etc.)
- Sealing joints between windows, walls, drywall, doors etc.
- Filling cracks in walls and on ceilings.
